Paragraph 20

The paragraph *should read*

20. In view of the population growth and multiple construction developments in the areas of separation and limitation, the expansion of agricultural and grazing areas and an overall increase in civilian activities, it is proposed to establish a civil affairs capacity in the mission in order to liaise with the civilian authorities and engage with the local communities in the area of separation through the competent Syrian authorities so as to provide information about and explain the UNDOF mandate and activities. UNDOF civil affairs and local liaison activities conducted in the area of separation will be closely coordinated with the relevant Syrian civilian and security authorities.
